

To the Members of the California State Senate:

I am returning Senate Bill 904 without my signature.

While this bill is intended to protect the personal information of our valued military personnel, it does not completely shield this information from public access. In addition, implementation of this bill could result in a state-mandated local program with unknown costs to the State. Given recent budget negotiations and concerns for fiscal restraint, I am returning this bill without my signature.

Sincerely,

Arnold Schwarzenegger
GOVERNOR
